## WELCOME TO PET RESORTS!

The staff at Pet Resorts would like to welcome you to Nashville's largest and most prestigious boarding facility. We understand that your pet is a member of your family, so we go out of our way to make your pet feel like a member of our family.

### BOARDING BIG DOGS

Even the largest dog will be comfortable in Nashville's largest indoor/outdoor runs. Each private run is a total of 64 sq. feet. The outdoor portion is completely covered as well to protect our guests from the elements.

### SMALL DOGS

Our small dog suites are perfect for our smaller guests. Unlike the cages many kennels use, we provide larger open-air enclosures. Each private enclosure is approximately 12 sq. feet giving plenty of room for the little ones to run around.

### KITTY CATS

And we haven't forgotten our feline friends. Our Cattery offers Kitty Condos and Townhouses in a climate controlled environment providing your cat a relaxing stay.

### GROOMING

We offer basic baths, luxury baths, and grooms for all breeds and sizes of dogs. Our competitive rates are based on the breed and condition of the coat.

### TRAINING

Pet Resorts of America's dog trainer has years of experience with dogs in areas like obedience, behavior problems, aggression, destructive behavior and other related issues. The trainer will teach you how to communicate with your dog and build a life-long relationship.

Cost. There is a one time fee that comes with a money back guarantee (you will also have access to free phone support for future issues if the need arises). The cost of a Personal training session...\$125. The value of a well behaved loving pet...Priceless.

### VACCINATIONS

In the best interest of all our guests, an up-to-date vaccination record is required before admission to Pet Resorts. We can call your vet to verify vaccinations or you can bring them with you. The vaccinations required are:

#### CANINES

Rabies  
Distemper (Dhlp)  
Parvo  
Bordetella

#### FELINES

Rabies  
Distemper (Fvrcp)  
FELV

### HOUSE KEEPING

Each run is cleaned and disinfected every day. Mesh cots are provided for sleeping comfort, and bowls are provided for food and water. Special items you'd like to bring from home, such as a favorite toy or bedding, are welcome. We want your dog to feel right at home while a guest at Pet Resorts.

### FOOD & TREATS

Your pet will eat well too while staying at Pet Resorts. We serve Nutro Ultra, the finest premium pet food Nutro has to offer, with no fillers or by-products. For those with special diets or just picky eaters, we allow food and treats to be brought from home. We also administer any needed medications and dietary supplements at no extra charge.

### TAKE A TOUR

Come see Pet Resorts for yourself. Make an appointment or just drop by during business hours for a tour of our facility. We'll show you everything a boarding facility should be.
